Project 2: Les Giraud

You are a television producer and you are creating a soap opera that centers around a family named Giraud. Make a family tree, using photos cut from magazines to show the members of the Giraud family and their relationships.

Supplies you will need: magazines, scissors, paper, green and brown construction paper, glue, and color markers or pencils.

Here's what to do:

1. Find appropriate photos of people in magazines to represent the following members of the Giraud family:

un grand-père	un oncle
une grand-mère	une tante
un père	un cousin
une mère	une cousine
un frère	un chat
une soeur	un chien

You might also find photos to represent **un prof, une prof, un copain,** and **une copine.**

2. Create a family tree out of green and brown construction paper.
3. Glue the photos of the Giraud family in the appropriate places on the family tree.
4. Write a description under each photo, telling each family member's name, age, and where he or she is from.
5. Present your Giraud family tree to the class.
